SACRAMENTO, March 25 .- Among the bills passed by the present Legislature and signed by the Governor, thus becoming laws, are the following bills:

Amending the code in relation to the power of courts in the matter of punishng contempt cases; permitting electric railroads to be built in any incorporated town; appropriating \$300,000 for an exhibition of California's products at the World's Fair; permitting the appointment of women as notaries public; providing for submission to the people of the State the question of electing United States senators by a direct vote of the people; creating a State Board of Pharmacy; requiring a year's residence in the State before an action for divorce can be had; making the office of State Printer an elective one; apportioning the State into congressional districts and legislative prescribing the competency and provid-ing for the protection of witnesses testi-fying as to crimes against the elective ranchise, and a bill prohibiting the fur-

ther coming of Chinese into the State.

The General Appropriation bill, which has not yet received the Governor's signatare, is based upon the party pledge that the State tax shall not exceed the limit of 50 cents on each \$100 of assessa ble property, and the Governor has power to veto any item without endan-gering the fate of the whole bill, in order to keep the total appropriation within the required limits.

Negroes to Separate Political Action.

Washington, March 25.-The census bureau has in preparation a bulletin, giving the population of the South-Atlantic States and Missouri and Kansas by races. The total population embraced in this count is given as 23,-875,759, of which 16,868,205 are white; 6,996,166 colored, and 10,888 Chinese, Japanese and Indians.

In the States included were found in 1890, fifteen-sixteenths of the entire colored population of the United States. The percent of increase of the colored population in what is known as the "Black Belt," during the decade ending in 1880, led to the popular belief that the negroes were increasing at a much larger rate than the whites.

The facts now ascertained sustain the theory that the high rate of increase shown in 1880 was apparent, not real, ad was due to imperfect enumeration in during a part of which time the slave trade was in progress, has the colored race increased more rapidly than the white. Since 1830 the whites have steadily increased at a more rapid rate than the colored people. This in-crease has not been effected by immi-gration, for, with the exception of Kansas and Missouri, these States received comparatively few immigrants. In 1830 there were nearly six colored inhabitants to ten whites, but this proportion has been reduced to a trifle more than four at the present date, or

by nearly one-third its amount. "The deficiencies of the ninth cen-Large Amount of Measures Disposoed Of.

There has been no extended amendment of this element since the time of the States appear to have lost and during the last decade there becomes percepti-ble a southward movement of the colored element from the border States into those bordering on the gulf, particularly into Mississippi and Arkansas. In these two States this has resulted in the production of a more rapid increase of the colored element than of the white.

#### CLAIMING EQUALITY. Northern Negros Urged to Organize for

Political Purposes. Washington, March 25.-The Interstate Civil and Political Rights Association of the United States, an organization of colored men, has issued an aduress to the negro voters of the North in which, after referring to the defeat of the Elections bill in the Senate, they say that important elections are to be held in Northern States where the negro vote is the balance of power and that each negro in the North is urged to refuse to vote for any candidate unless he

is known to be a firm friend of the negro, and a free ballot and a fair count. The negros are urged to organize for offensive and defensive purposes and allow the Anglo-Saxon to fight his political battles alone "whenever he is one of those men who have said that negros are an inferior class of people to the Anglo-Saxon race."

#### A STRANGE FREAK. Yavapai Claims the Prize on a Two-Headed Calf.

David Hall was in town yesterday evening with a natural curiosity in the shape of the hide of a double-headed calf. The calf was found at Minnehaha and was from a cow belonging to Stephen Condron, of Walnut Grove. It was dead plete heads, joined together, the point of union being in the neck. The heads were provided with one mouth, two eyes united, were as perfect and natural as have been a curiosity worthy a place in some museum.
